

A Revelation Of Desecrated Heavens

The Project Hate MCMXCIX

I'm the Whore, I'm the Saint and the Virgin
Dawn of man, revelation and the vermin
Bleed the false, kill the truth, I am judgment
I am fire, I am storm
I'm perfection, I'm bliss, I am torment
See the false, see the truth, see destruction
Walk the earth, burn the soil, Armageddon
Bleed my demons, I am war

Through the mist of the unknown
I bow to no one, I shattered the light

As I throw myself into darkness
I hold your bloodstained hand
When you see the rise of demons
I crush the Promised Land

Hail the powers that be
I hail insanity
The slaughter of the sheep
In godless bliss eternally

The queen of the damned shall rise again
With bloody hands, desire burns
The queen of the damned shall rise again
Feast of flesh forever reigns

I rise to become ashes
Taste the sulphur of demonical descent
I die to become fire. I hear them cry in vain

I'm the Devil's son and my work's just begun
I'm the chosen one who makes it all undone
Incarnation of evil, infestation of purity
Call my name, call my name, blessed be my lunacy

Your God has fallen (is screaming?), annihilation is
here
Drink my blood

Swallow the pyroclastic storms
Bring to man eternal war, dedicate yourself to the
flesh
Prepare for the new order

How could I trust again in the blood of the unknown?
How could I trust again in the fields of the unknown?

The queen of the damned shall rise again
With bloody hands, desire burns
The queen of the damned shall rise again
Feast of flesh forever reigns

Celebrate the birth of death
Armies, legions, domination
Masticate angelic flesh
Be the cause of annihilation

[Solo: Mike Wead]

The queen of the damned shall rise again
With bloody hands, desire burns
The queen of the damned shall rise again
Feast of flesh forever reigns
