

# Dominate

The Project Hate MCMXCIX

In my dominion You die  
But first You'll suffer pain  
Your wings won't fly again

Awaken from Your dwell  
As I force Your eyes  
to see the lies in Christ

In my dominion You die  
Godless You slowly burn  
Soulless You now return

My Demons grant You hell  
The spirit in Your soul...  
Reduced to burning coal

When You've failed  
You've failed once more...  
Your heart is frozen  
and Your body's cold  
Then angels' tears will fall...  
down from heaven

When You've failed...  
You've failed once more...  
Your heart is frozen  
and Your body's cold  
Then angels' tears will fall...

Charred soul, instant death  
Deprived of Your last breath  
God's angels, burnt and raped  
Oh, I so dominate

Fallen from grace, Their laughter has died  
The maggot race, in vain They run for the light  
Demons, prepare to war for the 666  
Angels, prepare to burn on the crucifix...  
Crucifix

Arise now avengers  
My demons, My armies  
Hate, Dominate  
Congregate, Eliminate  
The angels, God's angels...  
Now burning, while turning...  
Skinless  
Lifeless  
Faithless  
Faceless

It's so much darker now...  
when shadows are growing tall  
And the screams are louder no  
The screams that once were moans

You died before this time

Your blood still runs cold  
Your heart is frozen now  
Frozen to the core

Fallen from grace, Their laughter has died  
The maggot race, in vain They run for the light  
Demons, prepare to war for the 666  
Angels, prepare to burn on the crucifix

When You've failed  
You've failed once more...  
Your heart is frozen  
and Your body's cold  
Then angel's tears will fall...  
down from heaven

When You've failed  
You've failed once more...  
Your heart is frozen  
and Your body's cold  
Then angels' tears will fall...

These tears will fall like a gentle rain  
One last breath

These tears will fall like a gentle rain  
One last... last breath...

I'll take You down...  
into the fire  
You will suffer, You'll wear the crown  
Your pain is My desire

Once inside  
You'll scream in vain  
every sin known to man  
You'll experience with pain

I'll rape Your soul 1000 times  
then My demons continues with Hate  
For the years of oppression and indoctrination  
I now dominate!
