Dominate

The Project Hate MCMXCIX

In my dominion You die But first You'll suffer pain Your wings won't fly again

Awaken from Your dwell As I force Your eyes to see the lies in Christ

In my dominion You die Godless You slowly burn Soulless You now return

My Demons grant You hell The spirit in Your soul... Reduced to burning coal

When You've failed You've failed once more... Your heart is frozen and Your body's cold Then angels' tears will fall... down from heaven

When You've failed... You've failed once more... Your heart is frozen and Your body's cold Then angels' tears will fall...

Charred soul, instant death Deprived of Your last breath God's angels, burnt and raped Oh, I so dominate

Fallen from grace, Their laughter has died The maggot race, in vain They run for the light Demons, prepare to war for the 666 Angels, prepare to burn on the crucifix... Crucifix

Arise now avengers
My demons, My armies
Hate, Dominate
Congregate, Eliminate
The angels, God's angels...
Now burning, while turning...
Skinless
Lifeless
Faithless
Faceless

It's so much darker now...
when shadows are growing tall
And the screams are louder no
The screams that once were moans

You died before this time

Your blood still runs cold Your heart is frozen now Frozen to the core

Fallen from grace, Their laughter has died The maggot race, in vain They run for the light Demons, prepare to war for the 666 Angels, prepare to burn on the crucifix

When You've failed You've failed once more... Your heart is frozen and Your body's cold Then angel's tears will fall... down from heaven

When You've failed You've failed once more... Your heart is frozen and Your body's cold Then angels' tears will fall...

These tears will fall like a gentle rain One last breath

These tears will fall like a gentle rain One last... last breath...

I'll take You down...
into the fire
You will suffer, You'll wear the crown
Your pain is My desire

Once inside
You'll scream in vain
every sin known to man
You'll experience with pain

I'll rape Your soul 1000 times then My demons continues with Hate For the years of oppression and indoctrination I now dominate!
