

Become One Anything One Time

The Promise Ring

Wood water
When the shoe don't fit
All the news just has your name on it
It's an open door when the bricks are laid
But you've got space for something more

You gotta have some faith when you give up ground
Lose the fight still toast the day
I'm left with pillow talk
All I hear is whispering and heavy hearts

Hanging round you beat the seasons
You can't keep up
But they can't keep you down

I'm just happy you stuck around
I'm just happy you stuck around

We're all together now.

Become one anything one time
All of our learned things are like
Angel wings heartstrings books parties and tangerines
Up in smoke rings at the end of the day
Oh Mary could not say nicer things
So it's a curtain call
I can't feel the blood in my lips move at all

I'm just happy you stuck around
I'm just happy you stuck around
I'm just happy you stuck around

We're all together now.

Hanging round you beat the seasons
You can't keep up
But they can't keep you down

I'm just happy you stuck around
I'm just happy you stuck around
I'm just happy you stuck around

We're all together now.

We become one anything one time
