

Things Just Getting Good

The Promise Ring

When what I came to say is said,
And the sun sets on my summer career.
How September came for Sinatra,
Now it's winter then it is a new year.
The big bright lights take Manhattan and I take to Berlin.
Tomorrow we all get started,
But for tonight I am turning in.
When what I came to do is done,
And we all feel a holiday cheer.
I hear my swan song singing,
"It is winter then it is a new year."
So I follow weathers together and my best brother,
With things just getting good.
We're a working title for a really long book,
And when you were watching my hands just shook.
But if it came too easy it wouldn't be worth all the time that
it took.
So I follow weather, just getting good.
