Things Just Getting Good

The Promise Ring

When what I came to say is said, And the sun sets on my summer career. How September came for Sinatra, Now it's winter then it is a new year. The big bright lights take Manhattan and I take to Berlin. Tomorrow we all get started, But for tonight I am turning in. When what I came to do is done, And we all feel a holiday cheer. I hear my swan song singing, "It is winter then it is a new year." So I follow weathers together and my best brother, With things just getting good. We're a working title for a really long book, And when you were watching my hands just shook. But if it came too easy it wouldn't be worth all the time that it took. So I follow weather, just getting good.
