

Like a Stranger

The Psychedelic Furs

Nothing goes on today, she says
all of our running 'round to get away
Yes and it's complicated
some now and some later
one of the girls you have to say

And you talk like a stranger
you pray for a change
and they tease you and cool you and love you so strange
Oh and she's lonely, she says
out of a face that tells you "take me home"
yes and she keeps on talking
snowblind and sleepwalking
one of the girls you have to say

And you talk like a stranger
You talk like a stranger today
