## Like a Stranger

## **The Psychedelic Furs**

Nothing goes on today, she says all of our running 'round to get away Yes and it's complicated some now and some later one of the girls you have to say

And you talk like a stranger you pray for a change and they tease you and cool you and love you so strange Oh and she's lonely, she says out of a face that tells you "take me home" yes and she keeps on talking snowblind and sleepwalking one of the girls you have to say

And you talk like a stranger You talk like a stranger today
