

## New Dream

The Psychedelic Furs

I see your pretty face  
Go to check her and scan  
I look in between the lines

And there's somebody new  
And she don't know my name  
Waiting for a life to change

I've been wasting my time  
In the back of a new dream  
I've been wasting time  
In the back of a new dream

I've been wasting my time  
In a brand new dream  
Waiting for life to change

I see your pretty face  
It's so shaken and blue  
I've been looking between the lines

I've been wasting time  
In the back of a new dream  
I've been wasting time  
In the back of a new dream

Nobody's gonna fake  
Every time you tell the lie  
And nobody's gonna tie my shoes  
Or tie me up in chains

As a girl I want it all  
To tell you everything she knows  
And that anything to sleep with you  
When your eyes are closed

And I've been wasting all my time  
In the back of a new dream  
I've been wasting all my time  
In the back of a new dream

I've been wasting all my time  
In the back of a new dream  
I've been wasting all my time  
In the back of a new dream
