

Parade

The Psychedelic Furs

Here comes dawn today
To light the candles burn for you
Here comes dawn again
To burn the both ends down

Here he comes again
Who wants to turn the world for you
Here he comes again
Who can't believe at all

Here comes your parade
Down all the miles for you
Here comes your parade
To light the flags for you

I come wide awake
To shake a dream from out of view
I come wide awake
To lay them all away

Here comes your parade
To turn the world for you
Here comes your parade
Down all the miles for you

Here comes your parade
Down all the miles for you
Down all the miles for you
Here comes your parade

Here comes your parade
To turn the world for you
Here comes your parade
Down all the miles of you

Here comes dawn again
To light the candles burn for you
Here comes dawn again
To burn the both ends down

Here comes your parade
Down all the miles for you
Here comes your parade
To light the flags for you
