

Shock

The Psychedelic Furs

I hear brand new talk everywhere I go
They got a new word for what we do
When the lights get low

And I, I hear my heart beat black and blue
Don't call it love, it don't keep time
For me and you

I feel shock when the lights get low
I got a heart like crime
Yeah down in my soul

When the lights get low
And the music's loud
And the latest song is hot and cold
'Til the stars go down

And my blood runs cold
And my hands just shake
Got a heart like crime and a pretty face
Ain't all it takes

And I don't call it love
Waiting for the world to stop
And I don't call it love
Waiting for the world

I feel shock when the lights get low
I got a heart like crime
Yeah, down in my soul

I feel shock when the lights get low
I got a heart like crime
Yeah, down in my soul
I feel shock, shock

I don't call it love
Waiting for the world to stop
And I don't call it love
Waiting for the world

I feel shock when the lights get low
I got a heart like crime
Yeah, down in my soul

I feel shock when the lights get low
I got a heart like crime
When the world gets cold

I feel shock when the lights get low
I got a heart like crime
Down in my soul

I feel shock
I got a heart like crime
When the world gets cold

I feel shock when the lights get low
I got a heart like crime
Yeah, down in my soul

I feel shock when the lights get low
I got a heart like crime
When the world gets cold

I feel shock when the lights get low
I got a heart like crime
Down in my soul

I feel shock
