

# Shock

## The Psychedelic Furs

I hear brand new talk everywhere I go  
They got a new word for what we do  
When the lights get low

And I, I hear my heart beat black and blue  
Don't call it love, it don't keep time  
For me and you

I feel shock when the lights get low  
I got a heart like crime  
Yeah down in my soul

When the lights get low  
And the music's loud  
And the latest song is hot and cold  
'Til the stars go down

And my blood runs cold  
And my hands just shake  
Got a heart like crime and a pretty face  
Ain't all it takes

And I don't call it love  
Waiting for the world to stop  
And I don't call it love  
Waiting for the world

I feel shock when the lights get low  
I got a heart like crime  
Yeah, down in my soul

I feel shock when the lights get low  
I got a heart like crime  
Yeah, down in my soul  
I feel shock, shock

I don't call it love  
Waiting for the world to stop  
And I don't call it love  
Waiting for the world

I feel shock when the lights get low  
I got a heart like crime  
Yeah, down in my soul

I feel shock when the lights get low  
I got a heart like crime  
When the world gets cold

I feel shock when the lights get low  
I got a heart like crime  
Down in my soul

I feel shock  
I got a heart like crime  
When the world gets cold

I feel shock when the lights get low  
I got a heart like crime  
Yeah, down in my soul

I feel shock when the lights get low  
I got a heart like crime  
When the world gets cold

I feel shock when the lights get low  
I got a heart like crime  
Down in my soul

I feel shock
