

## Forbidden World

### The Pursuit Of Happiness

Take my hand, lead me to your forbidden world  
I want more than I see in the temporal  
Close your eyes, let me touch, girl your secret place  
Let us walk in the dark, let's be young at heart  
Lead me in -- show me more  
Lead me to your forbidden world  
Take my hand, lead me to your forbidden world  
I want more than I see in the temporal  
Close your eyes, let me touch, girl your secret place  
Let us walk in the dark, let's be young at heart  
Lead me in -- show me more  
I wanna go where no man has gone before  
Lead me to your forbidden world  
I've been meek all my life, break me from my shell  
Show me things darlin' I promise not to tell  
Let's explore your dark past, then we'll crawl through mine  
(Color me strange) There's no telling what we'll find  
Lead me in -- show me more  
I wanna go where no man has gone before  
Lead me to your forbidden world  
Then when you think that it was just a dream  
I'll show you the marks you left on me  
There is no need for you to be afraid  
Believe that the truth will set us both free  
Take my hand, lead me to your forbidden world  
I want more than I see in the temporal  
Close your eyes, let me touch, girl your secret place  
Let us walk in the dark, let's be young at heart  
Lead me in -- show me more  
I wanna go where no man has gone before  
Lead me to your forbidden world
