

Anger

The Qemists

Ladies and gentleman
The Qemists, Crossfaith

Let's go
Yeah
C'mon
Jump, jump

The anger in the place

We all fight for the right to get something to prove
You ignited the anger in the place, so
We all fight for the right to get something to prove
You ignited the anger in the place, go

You can breed me, you can feed me, you can trust me
You can breed me, you can feed me, you can trust me (C'mon)
You can breed me, you can feed me, you can trust me (Jump)
See we're two wolves inside, my anger salivates

We all fight for the right to get something to prove
You ignited the anger in the place, so
We all fight for the right to get something to prove
You ignited the anger in the place, go

Let's go

You can breed me, you can feed me, you can trust me
You can breed me, you can feed me, you can trust me (C'mon)
You can breed me, you can feed me, you can trust me (Jump)
See we're two wolves inside, my anger salivates

You can breed me, you can feed me, you can trust me
You can breed me, you can feed me, you can trust me (Yeah)
You can breed me, you can feed me, you can trust me
See we're two wolves inside, my anger salivates

Gotta be strong all night long
Fight the haters, bite your tongue
Gotta be strong all night long
Fight the haters, bite your tongue
Gotta be strong all night long
Fight the haters, bite your tongue
Gotta be strong all night long

You can breed me, you can feed me, you can trust me
You can breed me, you can feed me, you can trust me (C'mon)
You can breed me, you can feed me, you can trust me (Jump)
See we're two wolves inside, my anger salivates

Gotta be strong all night long
Fight the haters, bite your tongue
Gotta be strong all night long
Fight the haters, bite your tongue
Gotta be strong all night long
Fight the haters, bite your tongue
