

Hurt Less

The Qemists

Nobody's perfect,
gotta find a way to get through this
for another day.
Make the pain go away.

If you could make it hurt less,
wouldn't you take what was needed
to make it easier?

Yeah, I know sometimes
I'm not all that I can be.
It's a temporary consequence
of my self-medication.

Yeah, I know sometimes
I'm not all that I can be.
It's a temporary consequence
of my self-medication.

Make it hurt less!
Don't hurt less!
Be hurt less!

I can't find the words I like,
I can't find the time I need.
How can I get her
when our hearts collide,
when she dies inside of me?
(Make it hurt less)

Their open embrace,
there's no more to take, I see.
The unprecedented consequence
of my last conversation.

Nobody's perfect,
gotta find a way to get through this
for another day.
Make the pain go away.

If you could make it hurt less,
wouldn't you take what was needed
to make it easier?

Yeah, I know sometimes
I'm not all that I can be.
It's a temporary consequence
of my self-medication.

Make it hurt less!
Don't hurt less!
Be hurt less!

Nobody's perfect,
gotta find a way to get through this
for another day.
Make the pain go away.

If you could make it hurt less,
wouldn't you take what was needed
to make it easier?
