

Jungle

The Qemists

In the jungle, what you gonna do
In the jungle, what you gonna do
In the jungle, what you gonna do
What you gonna do soundboy
Here in the jungle, we're taking it over
What you gonna do soundboy
Here in the jungle, we're taking it over
What you gonna do soundboy

Tour life, high times, blaze green, no crime
JDs, all mine, Jaeger Bombs, take five
No sleep 'til sunrise, see the state of these eyes
Get messy, no lies, going hard every night
Our life is sick cos it's fire that we spit,
Making bodies move from the day we started this,
Got 'em bouncing, going insane the kids lose it,
Qemists and H yeah, we're taking over this shit

In the jungle, taking over this shit (x4)

In the jungle, what you gonna do
In the jungle, what you gonna do
In the jungle, what you gonna do
What you gonna do soundboy
Here in the jungle, we're taking it over
What you gonna do soundboy
Here in the jungle, we're taking it over
What you gonna do soundboy

We got our foot in the door, and we're about to smash the hinges off
In a nightclub, on cruise ship, on tour, coast to coast we cross,
From Sweden, to Finland, in season, when it's blazing hot,
Stop off at the free town Christiana, get lean up find a spot,
Bad boy from London England, that the police are tryn'a' stop
Cos after sound check my eyes drop, but anyway let's get back to my j
ob,
Everyday a different hotel key fob, got an itinerary, I can never kee
p up,
It's all love I'm with my people gettin' crunk

In the jungle, Where's my people gettin' crunk (x4)

In the jungle, what you gonna do
In the jungle, what you gonna do
In the jungle, what you gonna do
What you gonna do soundboy
Here in the jungle, we're taking it over
What you gonna do soundboy
