The Qemists

Ooh
You got that swag, boy
Ooh
You got that swag, boy

There's a train, it leaves at it doesn't rain
Catch it now, it ain't gonna come again
Jump back and get back a little more

Don't hide the feeling deep inside
Take it in your stride, at least you know you tried
Jump back and get back a little more

Go green and stick with the fast track
All eyes are searching to the black
Jump back and get back a little more

Curiosity never killed the cat
You're just out, I guess it was too fat
Jump back and get back a little more

You got my swag, boy
You got my, you got my
Swag, boy, yeah, yeah
Yeah
Ooh
You got my swag, boy
Jump back (back, back, back)

Get back a little (jump back, back, back)
Get back a little (jump back)

There's a train, it leaves at (it doesn't rain)
Catch it now, it ain't gonna come again
Jump back and get back a little more

Don't hide the feeling deep inside
Take it in your stride, at least you know you tried
Jump back and get back a little more

Go green and stick with the fast track
All eyes are searching to the black
Jump back and get back a little more

Jump back (back, back, back)
Jump back (back, back, back)

Jump back (back, back, back)
Get back a little (jump back, back, back)
