

Clone

The Quakes

Well it's hard to fit in with the usual crowd
If you've got opinions don't say 'em outloud
You gotta keep covered in your camouflage
When they look at you it's just a mirage

Some people don't have a choice
They got a certain look, they got a certain voice
They can't disguise themselves in expensive clothes
Just one look and everyone knows

No one wants to be left out on the outside
No one wants to end up all alone
Life is so much easier on the inside
Life is so much better when you're a clone

Well it's a sacrifice to give up yourself
But put it away, put it on a shelf
Don't let em know how you really feel
You go a lot farther if you're just concealed

Some people don't fit in well
They got a bad attitude and they look like hell
They wont change just to get along
No ones gonna tell them where they're wrong

No one wants to get left out on the outisde
No one wants to end up all alone
Life is so much easier on the inside
Life is so much better when you're a clone

Some people don't have a choice
They got a certian look, they got a certian voice
They can't disguise themselves in expensive clothes
Just one look and everyone knows

No one wants to get left out on the outisde
No one wants to end up all alone
Life is so much easier on the inside
Life is so much better when you're a clone

Life is so much better when you're a clone
Life is so much better when you're a clone
