

## Rockin' cats

The Quakes

Well, I can't take it anymore  
They've tried to lock us at the mainstream door  
Even Elvis had to tone it down  
They kept the wildest cats all underground

Chorus:

Wherever we go they put us down  
On every street, in every town  
We got the magic, we got the style  
It's the rockin' cats that drive 'em wild

Well, when a good band comes along  
They try to change the way they play their song  
They turn around and steal our riffs  
Turn on the TV, see a boy band with quiffs

Chorus:

Wherever we go they put us down  
On every street, in every town  
We got the magic, we got the style  
It's the rockin' cats that drive 'em wild

(Repeat Chorus x2)
