

# Keep It Punk

The Queers

Keep it up  
Keep it really  
Keep it punk

It's really not a shocker  
That's bombshells are punk rockers  
She parties at the shows and she get sick

When she's at the show  
They're no one she won't blow  
She gets happy  
When she gets in the pit

Keep it up  
Keep it really  
Keep it punk  
Life's a lot more simpler if you're drunk  
You're all about the noise and picking on the boys  
An there is nothing ever be stopping you

When she gets drunk and wasted  
She's looking up at places  
With that she doesn't ever know her name  
As they as they have leathers  
She don't care about the whether  
They got hooks to keep water on the brain

Keep it up  
Keep it really  
Keep it punk  
Life's a lot more simpler when you're drunk  
You're surfing with the band  
And drinkin' with the band  
And there's nothing to ever stop you

Life's a lot more simpler if you're drunk  
You're all about the noise and picking on the boys  
No one will ever be stopping you

Keep it up  
Keep it really  
Keep it punk
