

Friday Night

The Rabble

I said 1,2,1234!

Well you said to me that you'd be
There for me when no goes
It all went wrong (it all went wrong!)

Still got Monday, Tuesday, Wednesday too
But none of them ever feel the way that you do
Because you're the one, 2,1234!

Friday night, Friday night, Friday night
Wooooaaah
Friday night's a good time with you
Friday night's a real grand time
Friday night's always a good, good,
The best time with you

But once again, you leave me there
With no point, nothing, just a feeling: despair
It's such a despair
Well I know this heartache, yes it's true

Well I need you..1,2,1234!

Friday night, Friday night, Friday night
Wooooaaah
Friday night's a good time with you
Friday night's a real grand time
Friday night's always a good, a great,
The best time with the lads

We're hanging on the street
We're singing all the songs
Starting off the night with the
Oi! Oi! Oi!

Friday!!
