

# I Don't Need Love, I've Got My Band

The Radio Dept.

No longer waiting for your call  
Your silence really says it all  
You've got your friends  
I understand  
I don't need love I've got my band

I can't recall how love feels  
Memory fails to remind me  
And I don't care for one night stands  
I don't need love I've got my band
