

# It's Been Eight Years

The Radio Dept.

It's been eight years  
I'd like to travel through time  
But I can't do that  
I never knew that good experiences  
Could cause a pain like this  
I want something that I can't have

I close my eyes and someone is calling my name  
I lean over the window pane  
And in the distance I can just about catch a glimpse of  
us  
We had a ball  
We had it all
