

Don Gon Do It

The Rapture

(High... high...)

(High... high...)

High, high as the sky

Low, low as it goes

Purple dragons flying through your eyes

Milk shake chili crying, cry and cry

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

High, high as the sky

Low, low as it goes

Words are catchless wripping hypnotize

Why'd you say those things? Why'd you lie?

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

Get on and don gon do it, get on and make me cry

High... high...

High... high...

Notes, notes to turn

Love, love it burns

Hey, no man's broken heart in life

You are so fucked up I wish you die

Get on and don gon do it, you gonna make me cry

Get on and don gon do it, you gonna make me cry

Get on and don gon do it, you gonna make me cry

Get on and don gon do it, you gonna make me cry

High... high...

High... high...
