

In the Grace of Your Love

The Rapture

In the grace of your love
You don't turn me away
In the grace of your love
There is no other way

In the grace of your love
Every day when I wake up
In the grace of your love
In the grace of your love

In the grace of your love
I know we can find a way
In the grace of your love
We can find a brighter day

In the grace of your love
Please don't turn me down
In the grace of your love
Oh don't push me around

In the grace of your love
I am scared and I'm sick
In the grace of your love
Please don't hurt me so quick

Heaven
Don't want you dead

In the grace of your love
I see you shining inside
In the grace of your love
No one can ever die

In the grace of your love
Every day when I wake up
In the grace of your love
In the grace of your love
