## **Open Up Your Heart**

## The Rapture

Open up your heart Open up your heart Open up your heart When you're sad and lonely And your mind sees you only Take a chance you can fight it Open up your heart When your sick incomplete Watch the stars not your feet Feel the wind blow on your mind Now your seeing blind Fight the urge to say no Bring your friends then you'll know Come inside step away Kill your fears today Open up your heart Open up your heart Open up your heart Open up your heart Kick the habit you have learned You can do it you've been burned When your sick eyes need a turn Let the future learn Open up your heart
