

Drivin' Around

The Raspberries

Long hot days we'll be catchin' the rays (oh, baby)
Long hot days we'll be catchin' the rays
You know my tape deck is blastin'
My car's fast

When school lets out and the summer's here
We'll have some time for the sun
Throw my notebooks out and put my car in gear
We'll be having some fun

Drivin' around (long hot days we'll be catchin' the rays)
Oooh, drivin' around (long hot days we'll be catchin' the rays)
You know my tape deck is blastin'
My car's fast

With my girl by my side, we can go for a ride
And find a place we can dance
When it get real dark, we can stop in the park
And have a back seat romance

I'll be waiting all through the year
Just to get you alone with nobody near
Baby don't be late 'cause I just can't wait
All I wanna do is make love to you

I'm drivin' around (long hot days we'll be catchin' the rays)
Drivin' around (long hot days we'll be catchin' the rays)
