

Get It Moving

The Raspberries

Baby, don't you know that I couldn't share you
So, if you're coming back we'll get things straight
It's been so long since the day you left me
I never thought that I'd have to wait

Get it Moving back my way
Oh, I couldn't live another day without your love
Get it moving, yeah

Said you didn't want a love that would tie you.
You needed time and would I wait.
I've been so lost and now I've got to tell you
I need it all, I can't be second rate.

Get it moving back my way
Oh, I Couldn't live another day without your love
Get it moving back my way

I need your loving more each day
Get it moving back my way
I won't be happy till I know you'll stay

Said you didn't want a love that would tie you
You needed time and would I wait
It's been so long and now I've got to tell you
I need it all, I can't be second rate

Get it moving back my way
Oh, I couldn't live another day without your love
