

## Hands on You

**The Raspberries**

How I wish I had my hands on you  
Always want to have my hands on you  
Just can't wait to have my hands on you  
Bring your friend, she's welcome too

(everybody!)

Here we go, I got my hands on you  
Take it slow, I got my hands on you  
Down below, I got my hands on you  
Where's your friend, I want her too
