## With You in My Life

## **The Raspberries**

With you in my life all I want to do is love With you in my life you are all I'm thinking of I hope you know I've never felt this way And as long as you're true to me in my life you'll stay

I'll give you happiness; a little boy, a little girl Another boy, another girl, and love

With you in my life all I want to do is love
With you in my life you are all I'm thinking of
I hope you know I've never felt this way
And as long as you're true to me in my life you'll stay
