

Be My Sunshine

The Raveonettes

Come little baby be me sunshine, come little baby be my
sunshine
Come little baby do that thing, you do so good it always
makes me scream
Yeah, come little baby be my sunshine now
Come little honey be me sunshine, come little honey be my
sunshine
Come little honey stay my baby, give it all to me you
know I want it so
Yeah, everytime I see you I just can't go home
Come little baby be me sunshine, come little baby be my
sunshine
Come little baby scare me now and tell me 'bout the
things you've done with others too
Yeah, give it all to me I want to try them too
Come little baby be me sunshine, come little baby be my
sunshine
Come little baby do that thing, you do so good it always
makes me scream
Yeah, come little baby be my sunshine now
Yeah, come little baby be my sunshine now
