

To Do and Breaking into Cars.

Share I will never do the same  
I tried to stick around  
To ease your troubled mind  
Reached out for you in this town

It take some time to cool down  
Some time to cool up...

Did you go down, did you go out of your way  
I don't like this town, don't run away, yeah that's right

Too much for me, much for you, it's to dark here

I remember when we swore  
We never separate  
It was never a surprise  
It was already made

Did you go down, did you go out of your way  
I don't like this town, don't run away, yeah that's right  
(I tried)  
Too much for me, much for you, it's to dark here
