

Experiment in Black

The Raveonettes

Experiment in black
Experiment in black
You stumble upon yourself
You never gave it to much thought
The invasion comes
The invasion comes

Exploding beat
Exploding beat
Sitting here waiting for death
Experiment in black
You're never coming back
You're never coming back
You're never coming back

Walk around looking for death
Walk around looking for death
The invasion comes
The invasion comes
Experiment in black

Exploding beat
Exploding beat
