

# Ignite

The Raveonettes

Take what I want now  
Leave the pain with you  
Unmoved by heartache  
Moved away from you

What if I could run now  
What if I could die  
What if I could make my heart explode and never cry

I hate what I am now  
?? in love  
I hate what I have now  
You I'm tired of

What if I could run now  
What if I could die  
What if I could make my heart explode and never cry

What if I could free you  
What if you could smile  
What if I could make your heart ignite just for a while

What if I could run now  
What if I could die  
What if I could make my heart explode and never cry

What if I could free you  
What if you could smile  
What if I could make your heart ignite just for a while

What if I could die now  
What if I could go  
I always loved alone  
I never ever showed
