## Love in a Trashcan

## **The Raveonettes**

If you touch that girl You know it's okay People say she's a whore anyway I think she looks like a nice vamp Looking for love in a trashcan

If you kiss that girl you won't be caught dead She's the coolest girl you think you ever met I think she fits right into my life On the road till the end of time

Now the time is right and you feel the need To go down low and receive a treat The jukebox churns out songs about sex Come on baby you're my best fix
