## **Sad Transmission**

## **The Raveonettes**

I wanna taste you I wanna feel you I wanna hold you tight Just let me tease you Just let me eye you Pretend that you don't care

Intense moment When our eyes crash And from the wreck I emerge With all the love You ever dreamed of Devoted to you yeah

Oh let me hold you for one last time

Your heartbeat stops When I tell you That lovers always part A sad transmission Brought to you by Someone who doesn't care
