

The Beat Dies

The Raveonettes

Adored your picture a thousand times
You still think i was out of line
The meanest thing that i ever did
Was asking you for another hit

The first love you can't escape
The second love feels like rape
A giggly smile, nightpale face
I hear you whispering "hope she stays"

The beat dies, silence
Stay here with me
White deathly face
I'm in love

They file out to lovers sad
We walk from bar to bar mad
The first kiss, don't think thereof
The second kiss and you're in love
