Bleeding

The Ready Set

I'm just calling to say hello
Play the friend, you should know
I would lift you up if I could reach you
Said you're trying, I believe you

But don't let me down
I said don't let me down

'Cause all I'm trying to do is
Stop the bleeding
If I don't get through to you,
I'm through with you
All you ever do is run away, I won't spend
Forever chasing you
That I won't do
No

Not gonna chase you forever...

You're resisting open arms
Closing down, losing heart
You can throw your heavy words,
But I see through
The high is gone, I could be too

So don't let me down
I said don't let me down

'Cause all I'm trying to do is
Stop the bleeding
If I don't get through to you,
I'm through with you
All you ever do is run away, I won't spend
Forever chasing you
That I won't do
No

Not gonna chase you forever...

Oh I try to be the better man, is it worth it?
But you lie, is it working?

I'm just calling to say hello
Play the friend, you should know

'Cause all I'm trying to do is
Stop the bleeding
If I don't get through to you,
I'm through with you
All you ever do is run away, I won't spend
Forever chasing you
That I won't do
No

Not gonna chase you forever...
