

# Don't You Need Me

The Ready Set

Remember you and I driving down the one-oh-one?  
Remember Santa Monica saying I was the one?  
We took it fast, made it last  
Said that we would never let it go, we'll never let it go

Drinking and dancing by ourselves, we were chasing the sun  
Couldn't believe we made our great escape and got on the run  
The kind of kids that love to live in every moment  
Never let it go, never let it go

I see you in my sleep  
You're freezing in your sheets  
Why you left I'll never know, no

Don't you need me? Don't, don't you need me? [x6]

I miss your summer dress, the Carolina blue that you wear  
I miss the way you put those little flowers up in your hair  
Gave me a reason to believe and want to care  
Can't ever let it go, can't ever let it go

Send me back in time, to those nights when we had it all  
Will this come out right?  
Will you smile when you hear this song?

You clinging to my heart  
Singing in the dark  
Heard you through my radio

Don't you need me? Don't, don't you need me? [x6]

Is it just like the stories you heard growing up?  
Are the clouds made of silver?  
Do you think of me much?  
Things out here are crazy and smiling is tough  
Come see me when I sleep  
You would be enough

Don't you need me? Don't, don't you need me? [x6]

I see you in my sleep  
I'm freezing in these sheets  
Why you left I'll never know, no  
You clinging to my heart  
Singing in the dark  
Heard you through my radio

Don't let go  
(Don't you need me? Don't, don't you need me? [x3])  
Don't let go  
(Don't you need me? Don't, don't you need me? [x3])

Don't let go
