

21 and Up

The Red Jumpsuit Apparatus

Spun out in another bathroom stall
I tried to read all the writing on the wall
It would help if I could just see straight
I better make last call before it's too late
It's Friday anyway and I,

I'm killin' beers with all my friends
I hope this night will never end
I'm killin' beers with all my friends
I hope this night will never end
Until the next Friday begins

Bartender tries to kick us out
There goes your tip Buddy, I shout
Can't drive so I think I'll call a cab
Drunk dialed again, oh shit, my bad
It's Friday anyway and I,

I'm killin' beers with all my friends
I hope this night will never end
I'm killin' beers with all my friends
I hope this night will never end
Until the next Friday begins

I'm spinning out
But are you still with me?
I'm spinning out
But are you still with me?
I'm spinning out with you

I'm killin' beers with all my friends
I hope this night will never end
I'm killin' beers with all my friends
I hope this night will never end
Until the next Friday begins

I'm spinning out
But are you still with me?
I'm spinning out
