

Other Side

The Red Jumpsuit Apparatus

I looked in my reflection and almost had to cry
To think of all my friends, who died, all them much [?]
It makes me think of you, when we were young and wild
Soaked with this regret and the back of a lost goodbye

Whispering out your name
All that I do won't bring you back again

So I'll wait til I see you on the other side
At the gate I will meet you on the other side

All that I am watching, you from up above
When rain clouds make their way
And darkness blinds the sun

Whispering out your name
All that I do won't bring you back again

So I'll wait til I see you on the other side
At the gate I will meet you on the other side
Oh fast through love, sent from above

I will wait til I see you on the other side
At the gate I will meet you on the other side
I will wait til I see you on the other side
At the gate I will meet you on the other side

Other side, on the other side
