

Remember Me

The Red Jumpsuit Apparatus

It's me again pick up the phone
I hope that you're at home
I need a friend so don't pretend
Cause you're the one I called
I'll try again if I can
But I am moving on
There's nothing left for me here to live for

So I have just one last request
Please remember me at my best

Remember me at my best
When they lay me down to rest
I wonder if I will even be missed
Remember me at my best

Don't blame yourself when you find out
You know it's not your fault
I've had these problems for some time now
There's something very wrong
Inside my head you are my friend
So let us make amends
And send me off right
'Cause I won't make it through this night

And I have just one last request
Please remember me at my best

Remember me at my best
When they lay me down to rest
I wonder if I will even be missed
Remember me at my best

Don't try so hard
Don't try so hard
Don't try so hard
Don't try so hard to be happy

The best things in life are free
And no matter what you give you will never be received
By some beliefs
So, don't sweat it, just forget it
'Cause everybody know nobody gets out alive
We just survive
We just survive

Remember you still have friends
And we will be with you until the end
Everybody gets their heart broken
Get off your knees and start again
