## **Blue Collar Suicide**

## **The Refreshments**

I guess I could have run away When I saw that look in her eyes But she brought me to my knees Before I had time to realize

But I wished I'd never turned To see her smile at me But she lured me to her lair With all the things she promised me

Well if I could You know I would run away Right now

I can't sleep 'cause she snores like a chain saw And I can't eat cause she can't cook I can't write 'cause she's got all my inspiration And she can't count all the pills I took, yeah

She threw a leash around my neck And started spending all my money I ate her cooking night and day Even though I thought it tasted funny

She's kept me locked inside her house Days and nights and holidays No escape was to be found I tried a thousand billion ways

Well if I could You know I would run away Right now

I can't sleep 'cause she snores like a chain saw And I can't eat 'cause she can't cook I can't write 'cause she's got all my inspiration And she can't count all the pills I took

All the pills I took All the pills I took All the pills I took All the pills I took All the pills I took

So I wish I would have run away When I saw that look in her eyes But she brought me to my knees Before I had time to realize

And I wished I'd never turned To see she smiled at me But she lured me to her lair With all the things she promised me

Well if I could You know I would run away Right now I can't sleep 'cause she snores like a chain saw And I can't eat 'cause she can't cook I can't write 'cause she's got all my inspiration She 'can't count all the pills I took

I can't sleep 'cause she snores like a chain saw And I can't eat 'cause she can't cook I can't write 'cause she's got all my inspiration She can't count all the pills I took

All the pills I took All the pills I took All the pills I took All the pills I took yeah yeah yeah
