## **Tributary Otis**

## The Refreshments

I've traveled And I've seen the things I build, workin' Workin' to bring me down And I may be thirsty now But I will go beyond this thirst And my tears, I cry for you, all go dry

So I lay down on the floor, turn on my radio Come on River Otis make me cry 'Cause I've been out all night And I had to give up the fight So come on River Otis make me cry Come on River Otis make me cry

Well I've fallen But I have risen too in what I believe in Now I see through And you got thirsty too So you come to my well But the only thing you brought was your thousand yard stare

So I lay down on the floor, turn on my radio Come on River Otis make me cry 'Cause I've been out all night Still I had to give up the fight So come on River Otis make me cry Come on River Otis make me cry Yeah, make me cry

Well I've traveled And I've seen the things I build workin' Workin' to bring me down Well I ain't thirsty no more I've gone beyond that thirst And the tears I cried for you, all gone dry

Yeah, so I lay down on the floor Turn on my radio Come on River Otis make me cry 'Cause I been out all night Still I had to give up the fight Now come on River Otis make me cry Come on River Otis make me Come on River Otis make me cry

Yeah, make me cry Yeah, yeah make me cry, cry Come on River Otis Come on River Otis make me Come on River Otis Come on River Otis make me cry Yeah, make me try Make me try, try, try, try, try
