

It's the same ride on the same train  
sat here smelling like you  
they call them scots for reason darling  
they called me an idiot too

I think it must be the soap you use  
it stays with me all day  
they don't even bother pretending  
there's plenty to suck but there's nothing to say

so thanks for having me  
and your outstanding hospitality  
and as far as I can see this is a much better way to be  
cause at least it gives us something to do  
you do me and I do you  
when no one else is taking the bait  
it's easy to forget our mutual hate
