

Strike Me Down

The Reindeer Section

I'd always thought of someone else
Before I'd think of you
I always take the easy way
Before I'd struggle with it
Can't you see I had no choice
Other than to leave you?
All these years I lost my voice
Shouting over nothing

Never will be easy to hear babe
But you have got nothing to fear babe
Just think of all the things that I've done to you
Any time you're wanting me bad, girl

I haven't noticed much has changed
Drinking every day now
I used to hope the phone would ring
And now I'm glad it doesn't
Loving someone's hard enough
But leaving them is torture
Don't think I don't think of you now
I'm with you every day dear

Never will be easy to hear babe
But you have got nothing to fear babe
Just think of all the things that I've done to you
Any time you're wanting me bad, girl
