

Where I Fall

The Reindeer Section

I thought it was
The only itme
You can say to me
That this feels right

Leave me out
Leave me out
Leave me out

Leave me out
I feared the worst
I missed my chance
You've been and gone and took my heart

All my love
All my love
All my love

All my love
Not strong enough
I might just break
Cause i wanted you, make no mistake

Where i fall
Where I fall
Where i fall
Where I fall

Please don't look at me
I'm in such a mess
I would beat your love out of my chest

I just want peace
I just want peace
I just want peace

I just want peace
And quiet in my head
I can't find it the bars or in my bed
If you like I'll take your number from my phone
And lock the doors and turn the lights off in my home
