

Jaime says  
Sense you called yesterday  
I have felt so swell  
Come Back  
Come Back From Mexico  
I need your strength  
I need your help  
Hating Me  
Wont you put me through  
I miss you both  
Can't you tell  
Please let that be you  
Knocking on my door so loud just like you do  
Ringing a letter or two  
Jaime you are my fate and I love you  
Hey mitch  
What you guys been up to?  
How's prince?  
Is he okay?  
Mrs. Young I think your the best (that's all)  
That's all I'm trying to say  
Please let that be you  
Ringing my phone right now like I wish you would do  
Calling with some good news  
Jaime you are my fate and I love you  
You are my fate and I love you  
Stand by my side  
Always be true  
You are my fate and I love you  
I raise my right hand  
I swear it's true  
You are my fate  
You are my fate  
You are my fate  
You are my fate  
Please let that be you  
Singing my song  
So nice  
Sounding like you do  
Just humming along to your tune  
Jaime you are my fate and I love you
