

# Bent Out of Shape

## The Replacements

There's popcorn for dinner  
Last night it was cheesecake  
A little sleepy-time tea  
Spiked with another heartache  
I smell you hair  
The clothes I wear  
I miss your face  
Can't you see I'm bent all out of shape  
You got me bent all out of shape

I couldn't lie if I tried  
Yeah you kept me straight  
It don't feel so good  
But it made me feel great  
Bent out of shape

You wanna be a dancer  
And I'm on my last leg  
Call but you don't answer  
I call again tomorrow  
I call again today

I smell your hair  
The clothes I wear  
I miss your face  
Can't you see I'm bent all out of shape  
You got me, got me bent all out of shape

I couldn't lie if I tried  
Oh you kept me straight  
It don't feel good  
But it's gonna feel great  
Bent out of shape

I don't need no lover  
I don't need no more friends  
They tell me to forget her  
They tell me to forget her  
But I never felt better

I smell your hair  
The clothes I wear  
I miss your face  
Can't you see I'm bent all out of shape  
You got me bent all out of shape

Well my friends all say it shows, it shows  
Now I don't care who knows  
And that feels good  
It made me feel great  
Bent out of shape

Got me bent out of shape  
Lock me up  
Lock me up
