

# Johnny's Gonna Die

The Replacements

Johnny always takes more than he needs  
Knows a couple chords, knows a couple leads  
Johnny always needs more than he takes  
Forgets a couple of chords, forgets a couple of breaks  
And everybody tells me Johnny is hot  
Johnny needs something that he ain't got

And Johnny's gonna die  
Johnny's gonna die  
Johnny's gonna die

Everybody stares and everybody hoots  
Johnny always needs more than he shoots  
Standing by a beach and there ain't no lake  
He's got friends without no guts, friends that never ache  
In New York City, I guess it's cool when it's dark  
There's one sure way, Johnny, you can leave your mark
